

2015年度 セミナータイトル一覧

Date Time	Presenter	Title
2015/6/2 10:30~	富田	The evaluation for degradation of dissolved organic matter (DOM) released by seagrass and seaweed
2015/6/16 10:30~	塩崎拓平 博士 (大気海洋研 海洋生態系動態部門 微生物分野)	Nitrogen fixation and the diazotroph community in the temperate coastal region of the northwestern North Pacific
2015/6/23 10:30~	全	A study on the estimation of the removal rate of refractory dissolved organic carbon (RDOC) in the central Pacific Ocean
2015/6/30 10:30~	佐藤	Using dual carbon isotopes as a tracer of coastal ecosystem processes
2015/7/7 10:30~	呂	Sources and transformations of terrigenous dissolved organic matter in Otuschi Bay
2015/7/14 10:00~	高巢	Bacterial contribution to particulate nitrogen in the Sanriku coast
	山田	Localized accumulation and a shelf-basin gradient of particles in the Chukchi Sea and Canada Basin, western Arctic
2015/7/24 10:00~	内宮	Progress report: Dissolved free and combined amino acids in the Chukchi Shelf, western Arctic Ocean
	楊	Viral dynamics in the <0.2 μm phase of the sea water
2015/9/29 15:00~	Dr. James Leichter (スクリップス海洋研究所)	Establishing a framework for collaborative Long Term Ecological Research in coral reef ecosystems of the central and western Pacific
2015/10/13 10:30~	富田	The evaluation for degradation of dissolved organic matter (DOM) released by seagrass and seaweed
2015/10/27 10:30~	呂	Transformation of terrigenous dissolved organic matter in Otuschi Bay
2015/11/10 10:30~	佐藤	Internal variability of carbon-13 and carbon-14 in kelp (Undaria Pinnatifida) traces the influence of water exchange

2015/11/17 10:30~	全	A study on the estimation of removal rate of refractory dissolved organic carbon in the central Pacific Ocean
2015/11/24 10:00~	ワイアット	Research update in two parts: captive whale sharks and mesophotic coral ecosystems
2015/12/8 10:30~	山田	Gel-like particles dominate particulate organic carbon in the ocean's interior - Evidence from subtropical and equatorial regions of the central pacific
2016/12/15 10:00~	内宮	Response of heterotrophic bacteria to the autumnal phytoplankton bloom in the Chukchi Shelf, western Arctic Ocean
	楊	Possible transient impacts of the 2011 Earthquake on the microbial system in Otsuchi Bay
2016/12/22 10:30~	森本	Spatiotemporal variation of stable C and N isotope ratios of bivalves from mariculture area to surrounding seagrass beds: shift of bivalve feeds
2016/12/22 15:00~	和穎朗太 博士 (農業環境技術研究所物質循環領域)	Biogeochemistry of soil organic matter
2016/2/2 10:30~	白井厚太郎先生 (国際沿岸海洋研究センター)	Environmental and ecological reconstruction by calcium carbonate analysis
2016/2/2 14:00~	横川太一博士 (JAMSTEC)	Microbiological processes throughout water column of the pelagic ocean
2016/2/23 10:30~	宮入陽介 博士	放射性炭素をトレーサーとして用いて海洋生態系の情報を得る -AMS 測定システムの構築とその応用-
